

Medical Waste Management

Keep your community safe!

✓ Only these items are allowed in the Sharps Container

Needles & Syringes ✓

Lancets ✓

Scalpel & Razor Blades ✓

Auto Injectors ✓

Contaminated Glass Items ✓

Infusion Needles ✓

Blood Vials ✓

Sharps can cause injury and punctures. They could be contaminated with body fluids, blood, infectious diseases, toxins or any hazardous chemicals.

✗ Do NOT use Sharps Containers for anything else

Do not dispose of any plastic items, gloves, food or beverages, solvent / chemical bottles, paper materials, aerosol cans or liquids (except for blood in vials) in the sharps containers.

All types of sharps MUST NEVER be disposed of in the regular rubbish bin or toilet and MUST NEVER be recycled.
